OBJECTIVE

I'm looking for full-time work in the IT and telecommunications industry.

PERSONAL STATEMENT

As a fresh graduate in Informatics Technology and Computer Education at University of Negeri Jakarta, I pursue reliability, diligence, and responsibility. My educational path illustrates a deep fascination in Front-End Development, Web Design, And Network Engineering.

WORK HISTORY

SMKN 7 Jakarta

Jakarta, Indonesia
Jul 2023 - Dec 2023

● Substitute Teacher (Intern)

Interactive Media Design

- Delivered instruction in Interactive Media Design to 12th-grade Multimedia students, focusing on the application of graphic design principles, user interaction concepts, and digital media production.
- Guided students in using professional tools such as Figma to design, build, and manage interactive media projects that emphasized functionality, creativity, and user engagement.
- Developed and adapted lesson plans, assignments, and assessments to ensure alignment with competency-based vocational education standards.
- Fostered a collaborative and practical classroom environment, supporting students in applying their skills through hands-on projects that simulated real-world digital design workflows.

Clarus Innovace Teknologi

Jakarta, Indonesia
Dec 2022 - May 2023

● Network Engineer Intern

Network Infrastructure Project Leader.

- Simulated a network infrastructure project based on Spine-Leaf architecture, implementing VLAN segmentation to optimize data traffic and improve scalability.
- Configured and deployed Windows Server Active Directory Domain Services (AD DS) in a virtualized environment, enabling centralized user and resource management for testing enterprise-level directory services.
- Gained practical experience in network design, virtualization, and system administration, contributing to internal lab-based learning and documentation.
- Collaborated with team members to troubleshoot configuration issues, document procedures, and apply networking best practices.

QUALIFICATIONS

University of Negeri Jakarta

Jakarta, Indonesia
2020 - 2025

● Informatics and Computer Engineering Education

Bachelor's degree of Informatics Engineering and Computer Education, with GPA 3.67/4.00 and attained a score of 550 in Test of English Proficiency (TOEFL equivalent)

Actively enrolled in Computer Networking, Web Design&Programming, and Data Structure courses within my major and engaging in practical projects and related activities to enhance practical knowledge.

Paper/Thesis: <http://repository.unj.ac.id/id/eprint/54233>

SMK Negeri 7 Jakarta

Jakarta, Indonesia
2020

● Vocational High School, Network and Computer Engineering

- Actively contributing in Vocational Job Training as IT Technician, responsible for maintaining computer network reliability.
- Gained hands-on experience in network configuration, troubleshooting, hardware installation, and basic server management.
- Earned a BNSP (Badan Nasional Sertifikasi Profesi) certification, validating national competency standards in the field of Computer and Network Engineering.

TECHNICAL SKILLS

- Active Directory
- Network Security Basics
- HTML & CSS – basic web development and styling
- Adobe InDesign – capable in layout design and digital publishing
- Python
- DNS, DHCP, NAT, and VLAN Concepts
- MySQL
- Figma – experienced in UI/UX design and prototyping
- Microsoft Office

PERSONAL SKILLS

Adaptability

Quick to adapt to new tools, technologies, and work processes

Attention to detail

detail-oriented, ensuring accuracy in both networking and design projects

Problem-solving

able to troubleshoot and think critically in technical scenarios

Teamwork

Comfortable working in collaborative team environments and communicating effectively

INTERESTS

- Network Engineering and Infrastructure
- Front-End Development
- Cybersecurity
- UI/UX Design

REFEREES

Referees available on request.
